Prof. In-Charge

## **Annexure-1**

### **Qlik Academic Program has the following benefits for the University:**

- Data analytics is a crucial skill to be acquired due to the digital transformation we are witnessing all over the world, Qlik is a leader in data analytics, based in the US with more than 38,000 customers in more than 100 countries.
- The Qlik Academic Program is a part of a larger drive to create data literacy by enabling academic community in analytics under the program ,free resources are offered to Professors and students from accredited Universities
- Key features of this program include free online training ( worth \$ 3500) and qualifications and certifications for students and Professors. Most of the training and certification doesn't require any specific subject based training thus being relevant to students from all backgrounds. Demand for certifications is high in the job market.
- This program is accepted in more than 2400 Universities and colleges in 97 countries including India. A simple online sign up process gives access to this program.
- This program aligns with the University' mission of 'providing a conducive environment for pursuit of the technical education in close co-operation with industries'.
- Opportunity for AKTU to introduce this program to students and Professors of its 750+ colleges who will have direct access to gain world class analytics training and certification and become industry ready.
