Subject: AICTE-NEAT-Promotion of NEAT Scheme- Courses for Internships/Training on Data Analytics-reg.

Dear Sir / Mam,

Greetings from NEAT Cell, AICTE

We are happy to inform you that NEAT 2.0 launched on 16th February 2021. National Educational Alliance for Technology (NEAT) is a Public-Private Partnership model between the Government (through its implementing agency AICTE) and the Education Technology companies of India.

NEAT was conceptualized to bring the best technological solutions in education pedagogy to the existing students and youth of the country. NEAT products help the learners to get a personalized learning experience. enhancing their employability skills and bridge their learning gaps. NEAT also has a scheme for providing free seats to students of economically and socially weaker sections of society.

Further it is to inform you that [Lagozon Edutech Private Limited](#) has signed an MOU with AICTE to bring their best online **Data Analytics/AI based training products** on **National Educational Alliance for Technology (NEAT 2.0) platform** for the convenience of learners.

Following products of Lagozon Edutech Private Limited are available on NEAT platform:

- [Project Based Training on Data Analytics \(ERP, Business Intelligence and Artificial Intelligence\)](#): This product is offered in a B2B model, where academic institutions can directly utilize the course.
- [Virtual/In Person Internships on Data Analytics Live Projects from Industry Leaders](#): This product is offered in B2C model, where students can directly buy the course from AICTE-NEAT portal.

These courses are designed and developed for aspiring students pursuing graduation or post-graduation who want to start with a career in data analytics. The internship program is 6 - 8 weeks of duration (including 30 hours of live sessions by the technology team and 8 weeks of 24*7 access to Learning Management System (LMS) portal. The program is delivered via LMS hosted on Microsoft Cloud, online Live Classes via Zoom/Microsoft Teams, and with course content, assignments, gamification with quizzes and badges, case studies, Live projects, course-end exams acting as support. Students will get access on LMS with entire course content hosted on Cloud. These training/internship programs are directly delivered by the Software Development Team from [Lagozon Technologies](#) who are managing Data Analytics projects for global customers.

Internship/Trainings Course Coverage:

- Business Analytics Skills
- Technology Architecture
- BI Data Modeling
- BI Visualization
- User Administration and Security
- DAX Queries
- Publish and Export Reports
- Data Sources Integration with Excel, SQL Server, Salesforce
- Integration with Machine Learning using Python.
- Pushing predictions from Python into BI Tool

- Industry Case Studies and Project
- Exam, Viva and Project Presentation
- Additional sessions on Software Engineering in Live Projects –QMS, Agile-SCRUM, Customer Handling Soft Skills

It is recommended to use these courses and encourage your students to avail the benefits.

For any other clarifications, feel free to contact us.
