Subject: Information : IET India Scholarship Awards -Regarding

Dear Sir/Madam,
Greetings from All India Council for Technical Education!

We are happy to inform you that IET India Scholarship Awards aims to reward innovative thinking from the next crop of engineers entering the workforce. This initiative is part of a wide number of IET India initiatives focused at improving the quality of engineering in India. The past five editions of the IET India Scholarship Award have received over 35,000 applications in total, with over 16000 entries last year alone and this year, we are currently inviting applications for the 6th edition.

The IET India Scholarship Award 2022 is led by a highly empowered and respected Advisory board, composed of academicians and corporate professionals of national repute who helped build a strong framework for the IET India Scholarship Award. The Award evaluates participants across parameters that include academic performance, extracurricular activities, range of outreach activities and their ability to come up with creative engineering solutions to solve societal challenges. In the first round, students are shortlisted based on their academic performance as well as extracurricular activities. They then progress to an online test on STEM subjects and technical expertise. Students that clear the cut-off score are then invited to present their technological solution to a pertinent societal challenge in the regional rounds. Regional winners finally battle it out in the national finals to win the title.
