Sub: AICTE Prescribed Textbooks of Indian Authors in various Regional Languages -Reg.

Sir/Madam,

Greetings from AICTE New Delhi.

Under the guidelines of National Education Policy (NEP) 2020 to impart education in mother tongue so as to enhance the creativity, critical thinking among the students, All India Council for Technical Education (AICTE) initiated Technical Book writing scheme for both Undergraduate and Diploma level in five major disciplines viz Computer Science & Engineering, Electrical Engineering, Mechanical Engineering, Electronics & Communication Engineering & Civil Engineering.

Eminent authors from different institutions were identified, for writing original book in English languages and thereafter, quality translators & reviewers from all Indian Technical Universities across India were involved in translating these books in the 12 regional languages viz Hindi, Tamil, Gujarati, Kannada, Marathi, Bengali, Telugu, Punjabi, Odia, Assamese, Malayalam & Urdu.
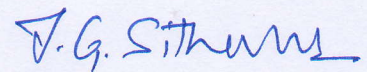

The unique features of the AICTE books are:

1. Content of the book aligned with the mapping of Course Outcomes, Programs Outcomes and Unit Outcomes.
2. In the beginning of each unit learning outcomes are listed to make the student understand what is expected of him/ her after completing that unit.
3. Book provides lots of recent information, interesting facts, QR Code for E-resources. QR Code for use of ICT, projects, group discussion etc.
4. Student and teacher centric subject material included in book in balanced and chronological manner.
5. Figures, tables, and software screen shots are inserted to improve clarity of the topics.

With the above initiatives, the major objective of the AICTE is to provide outcome based Technical Education Books in different Indian Languages to the students and faculty members across all technical institutions in India.

A dedicated website has also been developed from where these books can be viewed and downloaded at: https://ekumbh.aicte-india.org/

We look forward to your support in the dissemination of the above information among faculty members and students please.

V. G. Sitharam
