

Cyber Security is a serious system engineering problem and it needs engineered solutions. This is a crisis and the world needs a serious intervention to create millions of cyber defenders with deep system engineering skills.

Considering the gravity of severe skill shortages in Cyber Defender, AICTE has partnered with Cybervidyapeeth Foundation, an educational entity dedicated to Cyber Defense, to provide **Free 100 hours** of intensive cyber-Engineering Skill Building on "**Cyber Défense Engineering Using Python program**" from 20th July'2023.

Accordingly, we request you to exhort Students from any stream/branch of your institute whoever has access to a computer can register for this unique "Zero to Hero Program". Admission is based on a first come first serve basis.

Students can register online at: [**https://cybervidyapeeth.in/python**](https://cybervidyapeeth.in/python)

Please exhorts students/Faculty of any stream of your institute to join the program and help build a critical mass of Cyber Rakshak for resilient Bharat. The necessary Program brochure is enclosed herewith for your reference.

For any other clarifications, feel free to

contact shashank@cybervidyapeeth.in; mentor@cybervidyapeeth.in.
