

Dear Sir/Madam,

Greetings from AICTE!!

We are glad to share with you that the Ministry of Education launched the National Educational Alliance for Technology (NEAT) scheme to bring the best technological solutions developed by EdTech Companies in education technology to enhance youth employability. These solutions use Artificial Intelligence for personalized and customized learning experiences for better learning outcomes and skill development in niche areas. This scheme is also offering these courses/solutions free of cost to economically and socially weaker sections of students as per policy.

In this order, NEAT onboarded various EdTech solutions in niche and emerging areas with excellent features which have been found useful to enhance employability chances.

In order to introduce the salient features of these EdTech solutions we have scheduled a webinar from **3:00 PM to 4:15 PM on 16<sup>th</sup> January 2024** where technical experts from EdTech companies shall present the features and likely outcomes of their respective courses/products/solutions. Being a unique program in the interest of the student, you are requested to encourage the participation of faculty as well as students from your institute. The link to join the webinar is given below:

---

**Date and time: Tuesday, January 16, 2024 3:00 PM | (UTC+05:30) Chennai, Kolkata, Mumbai, New Delhi**
