Campus Placements 2019		
Job Notification Form		
COMPANY OVERVIEW		
Name of the Company	Amazon Development Centre India Pvt Ltd	
Website / Other source of Information	www.amazon.in	
Company Type	E Commerce	
Brief write-up on the Company (50 to 75 words)	Amazon teams in India work on complex business challenges to innovate and create efficient solutions that enable various Amazon businesses, including Amazon websites across the world as well as support Payments, Transportation, and Digital products and services like the Kindle family of tablets, e-readers and the store. We are proud to have some of the finest talent and strong leaders with proven experience working to make Amazon the Earth's most customer-centric company.  We made our foray into the Indian market with the launch of Junglee.com, enabling retailers in India to advertise their products to millions of Indian shoppers and drive targeted traffic to their stores. In June 2013, we launched www.amazon.in for shoppers in India. With www.amazon.in, we endeavor to give customers more of what they want – low prices, vast selection, fast and reliable delivery, and a trusted and convenient online shopping experience. In 4 years of launching our India operations, we have expanded our offering to over 100 million products across hundreds of categories. We are transforming the way India buys and sells and our philosophy of working backwards from the customers is what drives our growth and success.  We will continue to strive to become a trusted and meaningful sales and logistics channel for retailers of all sizes across India and a fast, reliable and convenient online shopping destination for consumers. For us, it is always "Day 1" and we are committed to aggressively invest over the long-term and relentlessly focus on raising the bar for customer experience in India. Amazon India offers opportunities where you can dive right in, work with smart people on challenging problems and make an impact that contributes to the lives of millions.	
Job Designation	Software Development Engineer
