Campus Placements 2018-19	
Job Notification Form	
COMPANY OVERVIEW	
Name of the Company	Attivo Networks
Website / Other source of Information	www.attivonetworks.com
Company Type	Service
Brief write-up on the Company (50 to 75 words)	Attivo Networks is an innovator in deception and decoy technology. Attivo uses deception technology to authentically detect BOTs and APTs inside the network, data centre, and cloud before the data is breached. Leveraging high-interaction decoys and deception, the Attivo BOT sink Solution lures and leads BOTs/APTs to reveal themselves without generating any false positives. Designed for efficiency, there are no dependencies on signatures, database lookup or heavy computation to detect, and defend against cyber threats. The Attivo Solution provides the forensics required to capture attacker methods/intent, update prevention systems, and protect against future attacks.
